3/22/68

Dear Dick,

More than usual snowed under. Sciambra was here this week, until today. Got back Monday, very tired.

Here is a memo I asked Beverly Brinson to make for us. I have a copy also.

Also, I gave Joel Palmer the Alyea, which he should have returne to you with prints of some of the frames. I never did have the time to look at the movies and Jim said he didn t have time. Joel was to send youxa set of prints. I have the negatives he made us. I presume he has written you.

There is even more confusion that before down below.

Best-and thanks for the prints
of the curtain-hanging
